“ I met Debbie in about 1979 when she started to board her horse, BOO, with us, she became family for years until we moved to Knightsen and then saw less of her. But she and I would meet at Starbucks when I came into town”.
I feel terrible I did not know of her death or funeral.

“ I met Debbie many years ago at the San Francisco Presidio when she first started working for FEMA. Throughout the years that we both worked at FEMA it was good getting to know her and I liked to tease her once in awhile. Sometimes I'd get a laugh or smile! In her position at the office, she helped a lot of people and I knew she would assist if I needed something while I was deployed to a disaster. It was clear when she spoke of her son, it was full of love and affection. My deepest sympathy to her family.

“ when I first knew Debbie is when she needed IT Support (1998) She was a very good person towards IT. So I like to crack joke on her, about her diet-Pepsi just to get her adrenaline going, like the vendor left only Coke or Pepsi in the Vending Machine. I enjoyed saying good morning to her and here a little grunt from her which now that I will sadly miss. For each moment of sadness, we wish you a day of comfort, for each hour of grief, we wish you a year of peace; and for every tear, we wish you a thousand wonderful Memories. RIP Debbie, for you are in our heart.

“ Over the years, Debbie and I spent a fair amount of time working on employee issues where the employees had issues with their management chain and its relationship with the union contract. Frequently we would be diametrically opposed but generally could find a workable solution. I enjoyed being a workplace friend of hers and miss her.
