“ Originally I met Keith as my husband's colleague but over the years he became a good friend. We socialized outside of the work environment and I always remember him as quiet with a rich voice and that righteous mustache! I'm glad we got to hear your voice one last time a few weeks ago. Rest in peace or investigate the universe! I think you'll choose the latter.

“ My sincere condolences to all who knew Keith. I've known Keith for nearly all of my professional life. We first met at Raychem in January, 1974 where as new employees we shared an office together. Later with him as a reference we worked at Memorex, Ampex, Conner Peripherals and finally Seagate. In 1983 we felt our job skills were becoming outdated so we attended San Jose State for our Master's Degrees in Materials Engineering. It was good to have a close friend to study with. I still have a copy of Keith's thesis. After I retired, Keith and I took a class in Architectural Design at San Jose City College. That was helpful in my beginning as a volunteer at Habitat for Humanity. I'm really sorry that Keith is gone after knowing him for 49 years. He came to our wedding in 1976 and helped us finish our concrete sidewalk in our new house. RIP good friend.
