

Michael Dean Mentzer

October 4, 1967 - April 18, 2026

Michael Mentzer aka Zorbon (58), left this mortal plane on Saturday April, 18th 2026.

From childhood he loved video games, computers and was active in ROTC. As life grew up he learned to balance his love for protecting others through ministry, friendship and working in security, with his love for the fun things in life. He always had a joke, sarcasm and time for a game. He loved comedy (especially Robin Williams) and a good escape from reality with stories about adventures world and Galaxy wide, in times of past present and future in all their forms. He always had a listening ear, a warm hug and a beverage to help get you through. He loved to create things. Baking to teas, whisky and cigar combinations, healing fragrances and perfumes and anything else he thought would put a little joy out in the world.

Family was huge to Mike, Leaving 2 children , 7 grandchildren, 3 siblings and 2 nephews. He will be greatly missed and his stories and adventures will live on.

Celebrations of life will be held by family and friends at different times and locations. If ya know ya know and will receive some sort of super secret, intergalactic communication. Or maybe just a contract for a quest.

Tribute Wall
